

PRESS RELEASE

Lake Mary (April 28, 2010)- Walk On Water, a specialty retailer in Lake Mary and Winter Park announced that it is presenting a \$1,000 donation to Safe House of Seminole as a part of Brighton's Feed Our Friends fundraiser. Walk On Water was among retailers across the United States that joined with Brighton last summer in selling a limited- edition collection of semi-precious jewelry especially to help feed struggling Americans.

"To help us decide where to direct our donations, we asked retailers who participated in the fundraiser to nominate their American Heroes-people in the community who lead tax-exempt non-profit organizations that are feeding people," said Laura Young, president of sales and marketing for Brighton, a Los Angeles-based maker of fine ladies accessories. "We selected Hope House from among hundreds of entries that showed for their work their 'hero' does in the community."

Donating by design is a continuing tradition at Brighton, Where founder and owner Jerry Kohl and his team of designers have created jewelry collections that have raised over \$3 million for breast cancer charities and over \$1 million to fight women's heart disease. With the American Heroes collection, they focused their creative efforts on the growing number of people going hungry due to the economy.

"We all have people in our lives that we're concerned about, so I decided to find a way we can make a difference in their lives," Kohl said. "That's how the American Heroes jewelry and additional Feed Our Friends programs came about."

Known for excellent quality and broad-ranging assortment of finely crafted accessories, Brighton produced handbags, jewelry, belts, footwear, small leather essentials, luggage, fragrances, and gifts which are sold in 142 Brighton Collectibles stores and in over 5,000 specialty stores across the United States.
